

LUNCHMEAT & LIFE LESSONS: SHARING A BUTCHER'S WISDOM

Written by Mary Bichelmeyer Lucas

Mary B. Lucas, B.D.

ITxM will have a special guest in the house on September 27th! Come see and hear the author of this book as she serves up wit and wisdom learned from her father, JOHN BICHELMAYER, the quiet, thoughtful butcher.

Learn how Mary climbed the corporate ladder and succeeded in business by following her father's good old-fashioned common sense advice. Hear how John Bichelmeyer's strong business mind, crossed with outstanding compassionate people skills, inspired Mary throughout her career and helped her to become a top senior executive in the billion dollar staffing industry. Mary says she earned her B.D. degree (Butcher's Daughter) over the years by "listening to my father's stories about how he achieved success in making deep connections with the people around him." Mary is proud to share with the world her father's simple life lessons she learned by spending hours at the butcher block table in the family kitchen with her dad. Lunchmeat & Life Lessons is full of many tasty morsels of knowledge dished up and served on a platter with a dose of humor. Here are a few samples for you to nibble on:

"See the best in people—if you don't like somebody, then they don't like you."

"Look for the good to balance the bad."

"Don't act like it's your due—take every chance to say thank you."

Get your doses of wisdom handed to you in person from the daughter of the man known in Kansas City as the "City Philosopher" on September 27th. Prime Cut advice will be dispensed from 9:30 to 10:30 AM and 3:30 to 4:30 PM.

Two sessions at BOTH locations

5 Parkway Center
4th Floor

Allies Building
3rd Floor Conf Room (via video)

You must RSVP to Millie Snyder at msnyder@itxm.org no later than September 20th to see this special presentation! You will understand why this book is being called "A moving cross between The 7 Habits of Highly Effective People and Tuesdays with Morrie."
